---

*Seeking a Technical Product Management or Product Analyst role that leverages my economics, development, and public speaking background.*

## EDUCATION

**University of Michigan** | Ann Arbor, MI - B.S. in Economics, English Minor, May 2021

- **Relevant Coursework:** Intermediate Macroeconomics/Microeconomics, Intermediate Finance, Discrete Math, Calculus II, Data Structures & Algorithms, Probability/Statistics, Econometrics
- **Technical Skills:** C++, C#, AngularJS, .NET, Python, HTML/CSS, Git, Excel, Typescript, JSON, SQL
- **Softer Skills:** Change Management, Release Coordination, Agile/JIRA, Scrum Master

## EXPERIENCE

**Bank of America** | New York, NY

**Product Manager / Product Owner / Business Analyst (Sept 2023 – Current)**

- PM/PO of Research platform (Research Subscribe, Bulk Email, Entitlement Dispatch Router) – 3 AIT's
- Prioritizing features to improve core functionality of the Institutional Equities platform while remaining in compliance within the regulatory framework
- Road mapping new initiatives, and building out business use cases via process diagrams
- Write user stories, manage the backlog, and work closely with senior product owners, software engineers, and stakeholders to prioritize tasks that are key to the business
- Head of Writing & Communications for Employee Engagement Team – write communications on behalf of Technology Executives as well as a monthly newsletter (200 people internally receive the comm.) Plan teamwide events for the Market Sales Organization

**Junior Product Manager (Sept 2022 –Sept)**

- Co-lead the monthly release of new software initiatives via 2 Scrum Teams
- Build out process workflows end to end in Excel

**Software Engineer I - Global Technology Analyst (Sept 2021- Sept 2022)**

- Full Stack Developer – Angular, Typescript, .Net, C#, and SQL Server
- Integrated older applications with the Next Generation platform thus reducing manual approval processes for 300+ internal users
- Supported an online platform that enables Research Analysts to input data and track regulatory requirements needed for publishing research
- Automated excel tracking and population of form fields
- Top 25 in CodeWeek – Bank-wide (nationwide) hackathon where our team created an internal tool to help bank developers get answers to their project specific questions (i.e. an internal Stack Overflow).

**Summer Technology Analyst (Summer 2020)**

- Worked on the Data Analytics team and trained a model (with ~77% accuracy) to predict whether hedge fund holdings would increase/decrease based on earnings call transcripts
- Designed a pipeline & applied sentiment analysis to predict if earnings calls are positive or negative
- Trained a classifier using NaiveBayes algorithm and applied it to earnings call data
- Used part of speech tagging and word filtering techniques to clean text data

**Florida Blue Cross Blue Shield | Jacksonville, FL**

**Data Analytics Intern (Summer 2019)**

- Analyzed Gender, Racial, and Age data to determine which demographics are most afflicted by the opioid epidemic
- Worked with Informatica Analyst to make scorecards that assess the overall quality of the data

**MPowered Entrepreneurship | Ann Arbor, MI**

**Tech Consultant (September 2018-2020)**

- Worked with a pre-seed startup (Scentsational Pets) and discussed strategies that enable wholesale vendors to purchase products separate from the normal website (2019).
- Assisted in creating an API, researched competitors, and worked with an AWS database for an emerging Silicon Valley Startup (2018).

**ADDITIONAL**

**Certified Scrum Product Owner (CSPO®) – Certified in Sept 2023**

**Delta Sigma Phi Social Fraternity:** Social Chair (Fall 2017), Rush Committee (Winter 2017 - 2018), and Brotherhood Committee (Fall 2019)

**Captain of High School Public Forum Debate Team:** Individually ranked top 30 in the U.S. (2016) & #1 in NJ
